

Announcement

Luca Rossi Appointed to Board of Directors for ECPE e.V.

Concord, NH, USA, November 5, 2007 – Aavid Thermalloy, LLC announced that Luca Rossi, Managing Director of Europe, has been elected to serve on the Board of Directors for the European Center for Power Electronics e.V.

The ECPE is an Industrial and Research Network for Power Electronics in Europe with a focus on research, education and advanced training as well as on public relations for power electronics. Power electronics experts from both academia and industry focus on research in key areas such as energy production, energy distribution, the use of energy and energy conservation with the goal to strengthen this key industry in Europe. The ECPE members include Europe's leading companies. For more information, visit <http://www.ecpe.org/>.

About Luca Rossi

Mr. Rossi joined Aavid Thermalloy in April 1991 and is the managing director of Europe. His vision is to make Aavid Thermalloy synonymous with thermal solutions in the European marketplace. He is achieving this through guaranteed customer satisfaction, which is expanding the company's share of the European market. He is a mechanical engineer and holds a Masters in Industrial Marketing.

About Aavid Thermalloy, LLC

Aavid Thermalloy, LLC is the world's leading supplier of thermal management products, which include heat sinks, interface materials and attachment accessories, fan heat sinks, heat pipe assemblies, liquid cooling and phase change devices that are configured to meet customer specific needs. Aavid Thermalloy's products are used in an expanding number of computer, networking and industrial electronics applications; including computer systems (desktops, laptops, disk drives, printers and peripheral cards), network devices (servers, routers, set top boxes and local area networks), telecommunications equipment (wireless base stations, satellite stations and PBXs), instrumentation (semiconductor test equipment, medical equipment, and power supplies) transportation and motor drives (braking and traction systems) and consumer electronics (stereo systems and video games).
